

Freshman's Ball

The Freshman's Ball is one of the traditional events in the faculty of mechanical engineering. It is organized for the freshmen in every November.

The atmosphere is very unique from the beautiful decorations and the participants' elegant clothes.

The night usually started with the freshmen waltz and thematic dances. After that, there is the dean's welcome and freshman oath. For the rest of the evening there are different musical artists guaranteeing the unforgettable party.

You will receive an invitation from the event in time with the exact date, location and information.
